

# LED LAMPS

FibreLED Lamps Brightness and Colour Temperature Suitable for Use Within a Retail Environment - Hugo Boss Store, Dublin

## LED LAMP SERIES

A remarkable LED downlight replacement module, will replace halogen of up to 50Watts with a similar colour temperature and lux level.

Using CREE LED chips with full thermal management. Available in a number of beam angles, they will fit into most standard halogen GU10/MR16 lamp housings. Modules are fully dimmable with most standard dimmers. Our MR16 version will easily swap into the majority of LV transformers for simple retrofit applications.

FibreLED Downlight product within commercial/domestic applications giving same light level and colour as 50Watt Halogen
