POTIS D FOCUS S.S.LED

Made by extruded aluminium track lights offer multiple optic distributions as a result of their innovative designs. With reflector technology, BR///GHT spotlights are a reliable, efficient, and flexible solution to lighting products for a professional and eye-catching presentation. 3Step MacAdam, lifetime more than 50.000Hrs and up to 3500Lumen.

UBER 1 Q S.S.LED

UBER 1 TR S.S.LED

UBER 2 Q S.S.LED

UBER 2 S.S.LED

Cast pressed aluminium track lights with varying reflectors. Projectors can be moved around the systems without tools, allowing quick and easy revision to complement any changes in display layout. 3-step MacAdam, Lifetime more than 50.000Hrs and up to 6500Lumen.

VELOX 5 Q

SALUS 7 H

SALUS 7 TR

Cast pressed aluminium track lights with asymmetric beam. Art galleries, stores and museums can be illuminated easily and efficiently with our LED track lighting, LED spot lights and LED projector, as the luminaires are powered by a special adaptor and require no external technician. Individual tracks come with multiphase circuits that can be efficiently powered with either a mains voltage or a DALI system. Up to 1,600 lumen per watt, 35 step MacAdam, Lifetime more than 50,000 hrs.
